

46604 Cut Section of Machines is an important part for all Electrical laboratories. Study of these machines is integral part of any educational course in Engineering. Student can easily understand various parts and operation of these machines with the help of these running cut section.

A comprehensive Cut Section of all types of Machines is designed to explain the working principle behind the major Machines parts. With this, students are able to see clearly the major component of the Machines and how they are interconnected, both electrically and mechanically which helps them in enhancing their knowledge.

### Features

- Self-Contained
- Easy to operate
- Quality designed motor with running condition
- Easily distinguish the internal part of machines
- Provided with terminal box for ease of connection
- Learning material CD
- 2 Year Warranty

### Scope of Learning

- Identification of different part of Machines
- Understanding the functional structure of Machine

### Technical Specifications

Model Nos.	Rating	Type of Machines
46604	1 HP	DC Shunt
46604A	1 HP	DC Compound
46604B	3 HP	3-Phase AC Synchronous
46604C	1 HP	3-Phase AC Squirrel Cage Induction
46604D	1 HP	3-Phase AC Slip Ring Induction
46604E	1 HP	DC Series
46604F	1 HP	1-Phase Capacitor Start Capacitor Run Induction motor

Weight : 27kg (approximate)

Optional  
DC Supply  
Single Phase Variac  
Three Phase Variac

Note: Specifications are subject to change.
